

Sleepy Hollow Trail Photos

Contributed by Roger

Visit our photo gallery and check out the recently added pictorial of the secluded Sleepy Hollow Trail. This is a wonderful trail and a treat for anyone that takes the time to hike back into the park. The trail is closed to mountain bikes, so for those of you looking for a place to get away from those rascals this trail is the place to go. I bike and hike so can appreciate both sides :-)

We actually rode our bikes to the trailhead, then hiked them into Sleepy Hollow a little bit so that we could lock them up out sight. We then hiked the full length of the trail, snacked and watched deer. It was a perfect trip!
